

Order no.: 011305

Assembly platform with stairway access

Specification

Working height 3 m	Scaffolding length 2.68 m	Scaffolding width 802 mm	Scaffolding height 1.94 m	Platform width 600 mm
Platform length 1.8 m	Load capacity 1.5 kN/m2	Max. load capacity 200 kg	Transport dimensions 2110 x 760 x 800 mm, 69.5 kg	Business division MUNK Günzburger Steigtechnik
Platform height 990 mm				

Facts

- Mobile scaffolding made of sturdy round aluminium tubing with welded frame parts
- Folding frame made of rectangular tube side-rails with self-locking hinges
- Fold-up stairs with 200 mm deep steps for a safe ascent
- Easy-to-operate lifting castors for moving to new locations
- Handrails, railings and knee rail on both sides for maximum working safety

- For narrow passages when assembled
- Space-saving during transport and storage, as it can be used as a trolley when folded up
- Four Ø 125 mm swivel castors with locking mechanisms
- Slip-resistant platform for secure standing
- Flexible use thanks to three different hook heights
- Delivered fully assembled
- Load class/scaffolding group 2: 1.5 kN/m²

Scope of supply

- Assembly platform: 1 x
- Fold-up stairs: 1 x
- Instructions for assembly and use EN 1004-2 - de: 1 x

Information on sustainability criteria

- Corporate certification: ISO 9001
- Corporate certification: ISO 14001
- Corporate certification: EN 1090
- Corporate certification: EcoVadis
- RoHS
- REACH
- The MUNK Group complies with a Code of Conduct
- The Supply Chain Act does not apply due to our size
- The materials used are listed in the technical specification
- Resource-saving production: own photovoltaic systems
- Energy-efficient consumption during production: LED lighting
- Repairability, durability and quality: 15-year warranty on series products made in Germany
- Recyclability: Our products are mostly made of aluminium, steel or wood and can be fed directly into the recycling process.
- Socially acceptable working conditions in production: fair wages, gender equality
- Economical and recyclable packaging: no use of polystyrene, predominantly use of wood and cardboard, small amounts of plastic

- No health hazards for the users

Added value

Safety at heights

- Optional protective assembly railing as safety railing during installation and removal
- Installation without the need of tools, uncomplicated and easy to handle
- Railing with integrated knee board and aluminium toe boards

Highest quality

- User-friendly and robust design
- Low weight of the individual parts for easy handling
- Welded round tube frames for maximum stability
- All-round profiled rungs for safe ascent and descent

Sturdy connection

- Automatically closing scaffolding claw with sophisticated geometry for a secure connection
- Innovative spring clip for plug-on frame – no accidental loosening or losing possible
- Transverse and diagonal braces for high stability

Modular kit system

- More than 180 variants are possible by combining different individual parts
- Flexible adaptations and extensions possible at any time
- Individual parts at the original part price
- Installation and removal without tools

Safe standing

- Adjustable outriggers with swing base or chassis bar ensure safe working depending on model
- Easy to handle
- Additional ballast weights required depending on application

Everything at a glance

- Clip tray for clearly visible attachment of the necessary test documents to the scaffolding
- Weather and UV-resistant

Flexible basis

- Swivel castors with load centring in braked condition
- Height adjustment for level compensation
- Various sizes and designs

Sponsored by BG BAU

Specification subject to conditions; for the latest information please visit the BG BAU website (statutory accident insurance company for the construction and construction related services in Germany). Since 2014, the BG BAU has been promoting the purchase of platform ladders, step stools and ladder accessories with single-sided and double-sided access. All members of the BG BAU profit from this. This aims to prevent work accidents on building sites and improve ergonomic working practices. For more information by BG BAU, please visit:
